knowledge

Abidjan, Côte d'Ivoire

Experts in Knowledge Sharing

In today's world, knowledge professionals are the ones that move organizations, which cannot afford remaining stable in a continuously changing environment. We at Aninver have a unique market positioning: we provide strategic advice but we also own and manage knowledge platforms.

Our differentiated positioning allows us to provide our clients with the latest solutions to complex problems, especially when they relate to generating, compiling and distributing knowledge. Our focus is Problem Solving and we articulate implementable solutions for helping our clients to stay competitive and act in complex situations.

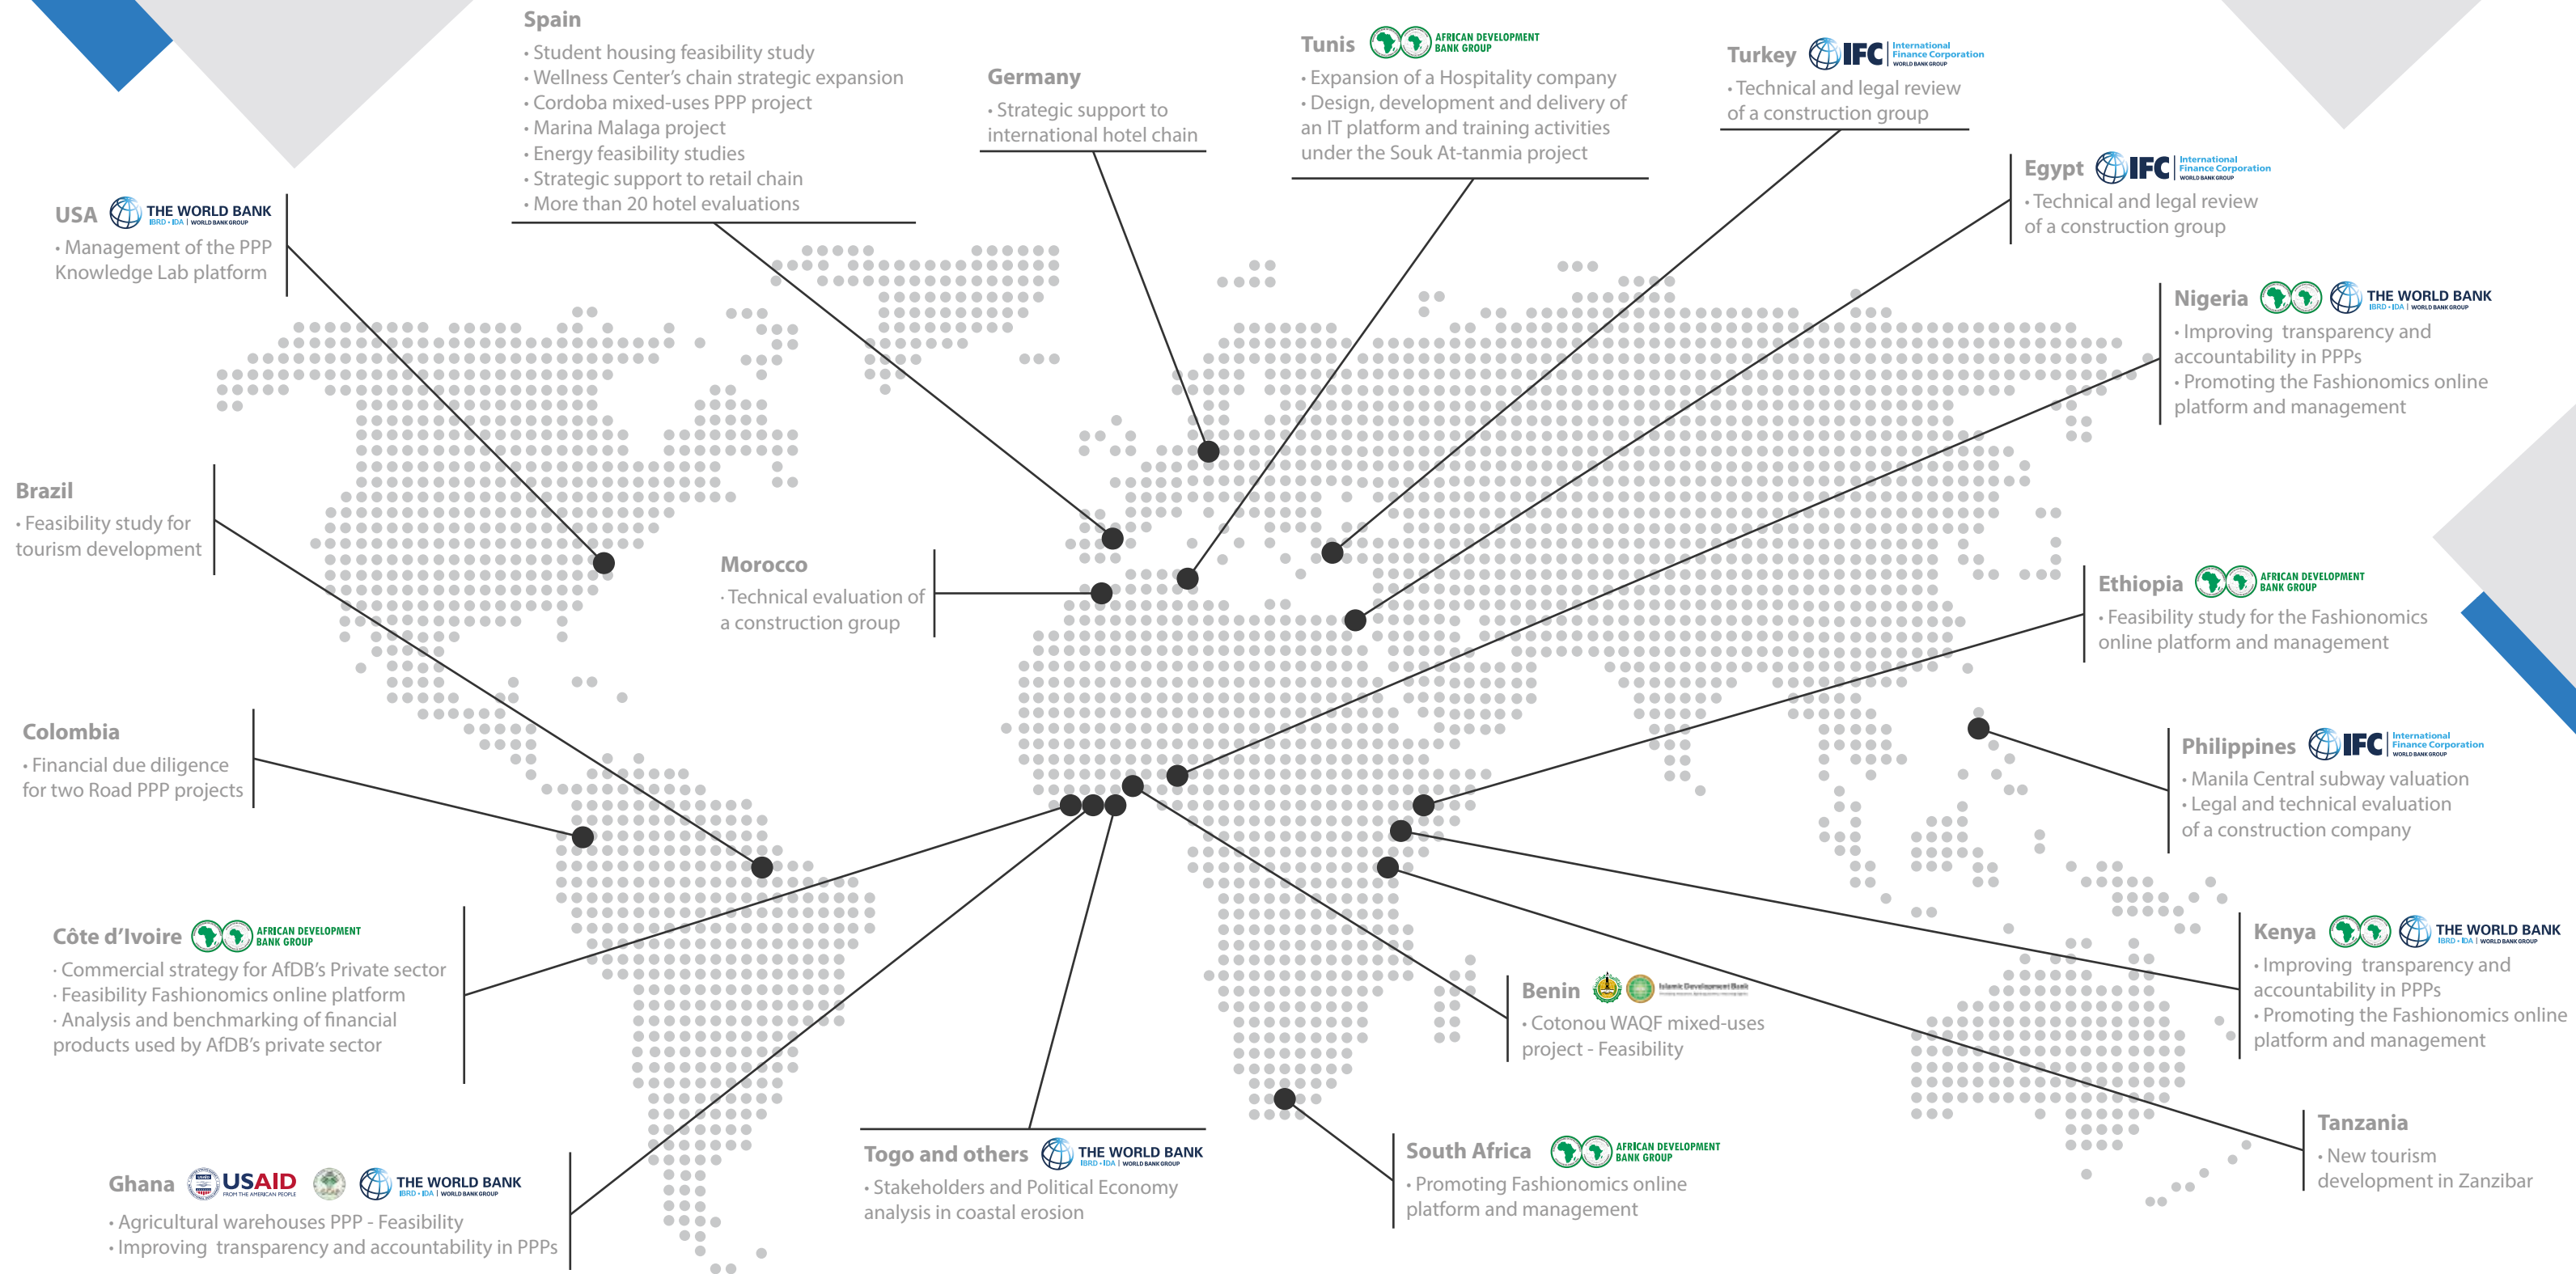

Specialized in working with Development Financial Institutions

Aninver has worked for some of the most relevant Global Development Financial Institutions (DFIs), such as IFC, World Bank, Islamic Development Bank or African Development Bank. From managing the PPP Knowledge Lab platform, for the world's leading multilateral development agencies, to working in Climate Change for the World Bank in Africa or designing a commercial strategy for the private sector of the African Development Bank, we at Aninver serve DFIs as core activity.

Our mission and how we work

We have a clear mission: help our clients to make better decisions through insightful market intelligence tools and define impactful and implementable solutions for their complex management problems. We are a boutique market intelligence and advisory firm that works very close to our clients, focused on knowledge-based recommendations, supporting them in the implementation and working globally.

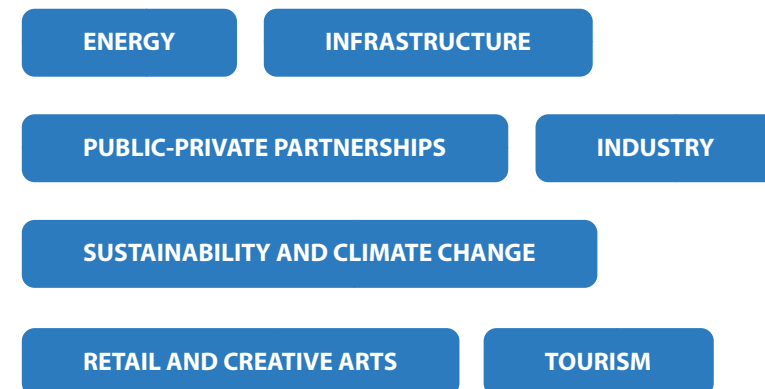

A truly global firm with a focus on Emerging Economies

Aninver is focused on Emerging countries, especially in Africa, Latin America and Southeast Asia. We have worked in countries such as Philippines, Ghana, Benin, Côte d'Ivoire, Togo, Ethiopia, Egypt, Morocco, Tunisia, Kenya, Nigeria, S. Africa and many others.

Although we also serve clients in the most developed markets, especially through our specialized online platforms and research services, it is in the developing world where we are better positioned as strategic advisors. Our multidisciplinary team works in English, French, Spanish and Portuguese.
